User manual (for image manager)

Thank you for using this worthless application. Here is how it works:

There is 3 different clickable buttons located on the interface.

Button 1 : [zoom in / out] = click this button to change size of the image from (400 x 400) to (200 x 200). Click again to go back to (400 x 400).

Button 2 : [color] = click this button to change image color to black and white.

Button 3 : [hide / show] = this button will simply hide / show the image.

Have fun!
